

# OPERATING YOUR TRACTOR

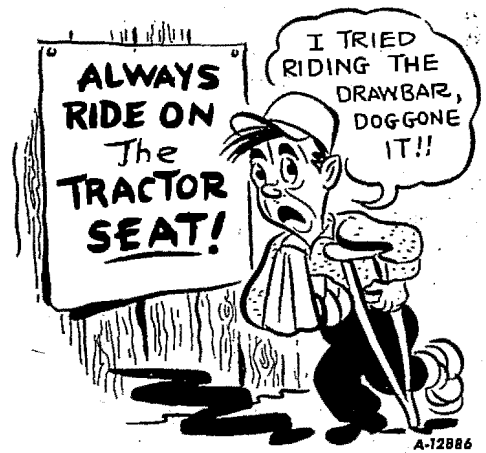

Always drive the tractor at speeds slow enough to insure safety, especially when driving over rough ground or near ditches.

Be extra careful when working on hillsides. Watch out for holes or ditches into which a wheel might drop and overturn the tractor.

Only one person, the operator, should be permitted to ride on the tractor when it is in operation.

Always ride on the tractor seat when driving on the highway or to and from the fields. Never ride on the tractor drawbar or on the drawn implement.
